

AI Catalyst Berau Winner Competition vol.1

People Engagement and Culture

AI Catalyst Berau Competition Winner

Rayhan Fajusha
1st Winner

Position

Mine Dev & Production Control Manager

Degree

Masters of Business Administration Program - ITB

AI Project

One-click Production Status

Business Impact (estimated)

IDR 135 – 155 Millions

Sutami Sitorus
2nd Winner

Position

Mine Planning Senior Manager

Degree

Bachelor of Mining Engineering - ITB

AI Project

AI SmartOps: Document & Knowledge Automation

Business Impact (estimated per user)

IDR 25 – 38 Millions

Jimmi Idris
3rd Winner

Position

Occupational Health & Safety GM

Degree

Masters of Business Administration Program - ITB

AI Project

Insight and Deep Dive Safety Evaluator serta Automation Intervention

Business Impact (estimated per user)

IDR 200 – 700 Millions

Winner

Rayhan Fajusha

"One-click
Production Status"

Daily Production Status

Weekly Operation
Meeting

Previous Process

- Data diinput oleh DIC ke OPTA
- Dari OPTA diinput ke Excel oleh MDPC
- Dari Excel dibuat format laporan untuk dikirimkan ke WAG Top Management

Previous Result

Dear Pak DAG,

Please find below the coal production morning report based on R3MMP Sep-Nov 2025

Site / Actual / Required Plan / Achievement 2 Sep-25

- Hasil dari one-click daily production status menjadi lebih komprehensif
- Meningkatkan akurasi menjadi >95%
- Durasi pekerjaan menjadi < 2 menit

- Laporan dikirimkan ke WAG Top Management berupa text-based
- Terdapat 3 laporan yang dikirimkan rutin secara harian ke top management (1 via WAG, 2 via email)
- Durasi pengerjaan 3 laporan tersebut adalah 2 jam
- Akurasi pekerjaan 80-85% (kesalahan input dan kesalahan formula di excel)

Winner

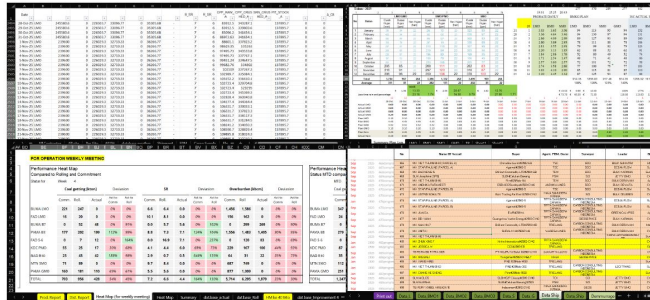

Rayhan Fajusha

“One-click
Production Status”

Daily Production Status

Weekly Operation
Meeting

Previous Process

- Terdapat 4 file excel untuk membuat materi weekly operation meeting
- Hasil dari excel tersebut akan dimasukkan ke PowerBI
- Durasi pengerjaan materi ini adalah 3 jam

Previous Result

- Hasil PowerBI ini dipresentasikan ke Top Management di hari Senin setiap minggu
- Akurasi pekerjaan 80-85% (kesalahan input dan kesalahan formula di excel)

Improvement Result

- Hasil dari one-click weekly meeting operation menjadi lebih komprehensif
- Meningkatkan akurasi menjadi >95%
- Durasi pengerjaan 2 menit

2 Winner Sutami Sitorus

“AI SmartOps:
Document &
Knowledge
Automation”

Source of Information

ChatGPT 5.2

Role
Anda sebagai seorang bisnis analitis dengan pengalaman lebih 10 tahun dibidang proses akuisisi perusahaan tambang.

Task
Tugas anda membuat analisa dari data-data dan dokumen yang diberikan dan membuat evaluasinya. Namun sebelum proses evaluasi, tolong buat flow proses akuisisi perusahaan tambang, selist apa saja data atau informasi yang diperlukan.

Baik, Saya akan menjawab sebagai Business Analyst dengan pengalaman >10 tahun dalam proses akuisisi perusahaan tambang, dengan pendekatan yang praktis, terstruktur, dan siap dipakai sebagai framework kerja sebelum masuk ke evaluasi data.

I. Flow Proses Akuisisi Perusahaan Tambang

Berikut end-to-end flow akuisisi perusahaan tambang, dari tahap awal sampai closing & post-acquisition:

Strategic Screening & Target Identification

Tujuan: memastikan target sesuai strategi bisnis.

- Definisi tujuan akuisisi (cadangan, lokasi, sinergi, portofolio)
- Screening awal kandidat perusahaan tambang
- High-level assessment: komoditas, stage tambang, ukuran, lokasi
- Indicative valuation kasar (Desktop study)

Summarize Agent

ChatGPT 5.2

Gate Decision Matrix – DUMMY TERISI

Download:

07_Example_Gate_Decision_Matrix.xlsx

Contoh keputusan:

Risk Area	Issue	Risk	Decision
Tenement	PI overlap	Critical	Conditional Go
Resources	Resource downgrade	Major	Conditional Go
Coal Quality	CV variability	Major	Go with mitigation

Sangat efektif untuk Investment Committee, karena:

- Tidak debat teknis
- Langsung keputusan berbasis risiko

Kesimpulan

Sekarang Anda sudah punya:

- SOP flow DD
- Contoh pengisian nyata
- Alat kerja (Excel + Word)

File Conversation

ChatGPT 5.2

Sebutkan filenya masuk, aku langsung susun tabel Excel-nya rapi dan siap dipakai.

📎 🗑️ 🔄 📄

Siap

Aku sudah mengonversi tabel Coal Quality dari gambar ke file Excel dengan struktur rapi dan siap diolah.

Download file Excel-nya di sini:

Coal Quality.xlsx

Idi sheet:

- Kolom lengkap: Seam, TM, IM, Ash, VM, FC, TS, CV (adb & ar), HGI
- Angka sudah dalam format numerik (bisa langsung dipakai untuk analisis, chart, atau pivot)

Kalau mau:

Document Checking

ChatGPT 5.2

Siap berikut saya kumpulkan semua link download dokumen yang sudah Anda upload dan hasil revisi (CLEAN) yang sudah saya buat:

Dokumen Awal

- GMO: 20250320_FS_BC_GMO_Bab 6_Rencana Penambangan_Rev00g.docx
- LMO: 20250320_FS_BC_LMO_Bab 6_Rencana Penambangan_Rev01.docx
- SMO: 20250320_FS_BC_SMO_Bab 6_Rencana Penambangan_Rev01.docx
- BMO: 20250320_FS_BC_BMO_Bab 6_Rencana Penambangan_Rev00m.docx

Versi CLEAN (sudah diperbaiki typo/inkonsistensi)

- SMO_CLEAN: 20250320_FS_BC_SMO_Bab 6_Rencana Penambangan_CLEAN.docx
- BMO_CLEAN: 20250320_FS_BC_BMO_Bab 6_Rencana Penambangan_CLEAN.docx

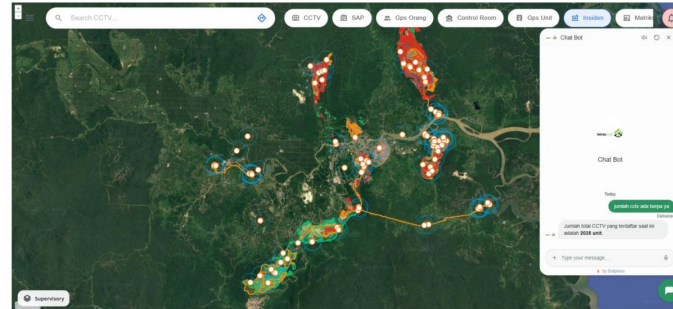

Anda tinggal klik link di atas → file otomatis terunduh ke komputer.
